## **Dear vacationers!**

Our apartment should be a second home. You should be able to feel good and rest. We have made a lot of effort with the facility and hope that you will find everything you need. The following house rules should be a help for a harmonious stay. We've also listed some rules that we hope will help you understand. By treating the apartment properly, you will continue to help us to offer you and other guests satisfactory facilities.

## **General**

If you miss anything in the facility, or if you need help, contact us with confidence. All things that are in the apartment or on the balcony, may and should be used by you. Please handle all equipment and inventory carefully and treat the rental object with care. Please make sure that your fellow passengers comply with the rental conditions. The hiking boots and rubber boots have to be taken off from the bottom of the entrance area.

## **Kitchen**

Please handle the kitchen equipment and the technical equipment with care. Since a soiled kitchen does not please anyone, please only put crockery, pots and cutlery in the cabinets and drawers in clean and dry condition. Do not place hot pots or other hot items on the tables or countertop without coasters. Always use a cutting board as a base for cutting. Please leave the interior of the oven and microwave in a clean condition.

## **Damage**

No one deliberately damages things, but it can happen to anyone that something breaks. We would be pleased, if you inform us about the damage, and we do not notice this after your departure, at the final cleaning. The renter is liable for damages in the amount of the replacement cost.

## **Ventilate**

In order to avoid mold, we kindly ask you to ventilate the rooms sufficiently, at least once a day for 5 to 10 minutes and especially after showering.

**Black ton:** residual waste

**Yellow bag:** plastic, tin cans
